

HAND TUFTED

THE PROCESS

SYLKA™ Hand Tufted is the next step in luxury and allows for the creation of completely bespoke handmade rugs and carpets.

Sharing the same wonderful lustre that **SYLKA™** is world-renowned for, Hand Tufted offers interior designers, boat builders and architects the ability to develop one-off pieces to suit a wide range of luxury applications.

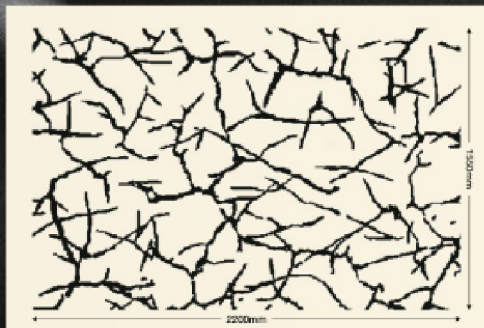

Hand Tufted is created by highly skilled artisans who spend hours meticulously ensuring that each and every carpet and rug meets the very highest standards.

STEP 1 | Specifying your rug or carpet

We invite all of our Hand Tufted clients to join our team when specifying their design. During this process, we will help you arrange patterns and colours to your liking.

STEP 2 | Confirming your design

Our team will send you a render of the final design for you to review and approve. Any final changes needed can be made at this stage.

STEP 3 | Handcrafting your design

Our highly skilled artisans carefully craft your design using the latest techniques to create a truly unique product.

STEP 4 | Delivery and quality check

The finished product is delivered to our headquarters, which usually takes six weeks after the design is signed off, where we conduct a final, thorough quality check.

STEP 5 | Fitting your carpet or rug

Our specialist team of carpet fitters will prepare the room for your rug or carpet and install it as per your requirements. The project manager will conduct a final review to ensure you are satisfied.

The benefits of **SYLKA™**

- **SYLKA™** combines the highest standard of luxury with tested durability.
- The **NuSilk™** fibre system gives **SYLKA™** a natural silky lustre and softness.
- Ideal for a wide range of luxury applications including high-end residential, hotel, corporate, retail, superyachts and hospitality venues.
- Unlike any other silk or faux silk, **SYLKA™** has a heavy domestic/medium contract grading for unbeatable endurance and longevity.
- **NuSilk™** enables spot cleaning without leaving a water mark and can be professionally steam cleaned as easily as any other conventional carpet, with outstanding results.
